The Dr. Betty Shabazz Delta Academy was created out of an urgent need to save our young females ages 11-14 from the perils of academic failure, low self-esteem and crippled futures. This program provides an opportunity for local Delta chapters to enrich and enhance the education that our young teens receive in schools across the nation. Specifically, we augment their scholarship in math, science, and technology, their opportunities to provide service through leadership and sisterhood, and the development and maintenance of healthy relationships.

LASB recruits young females each year to participate in workshops, field trips, and other activities involving such topics as etiquette, technology, cultural awareness, self-awareness, and personal finance. Presently, Delta Academy meets every 3rd Saturday of each month at California State University Dominguez Hills in Carson, CA.
